

## **BODIE** by Renee Edel

Bodie was born in the spring of 2018. He was dun in color, like his mom Shiva (who is also up for adoption), but he changed to a red roan by the end of the summer. His dad, Gideon, was a blue roan, and that color gene allowed Bodie's color to change to a roan. Because his color is very unique I would think there will be a lot of people interested in adopting him. If I had the place and the time to adopt a mustang, this beautiful boy would be my choice. I have only seen him twice in person, but he seemed calm and curious. His family band often see people on the wild horse range, so he should adapt quickly to his new life with humans. We learned from our November 2018 adoption that the young horses can bond very quickly with their kind humans. Bodie would be a great mustang to adopt if you want to start with a 7 month old colt.
