

JUBILEE

Jubilee is a 5 year old black mare, born in October of 2013. Her sire is Atomic and her dam is Kiva (15 yrs. old, who is also up for adoption). Jubilee has no offspring, but has several siblings left on the range. When I first “met” Jubilee, she was just a week or two old. She was standing alongside the road with her band. She has an unusual face mark and is one of the most friendly and curious mares around. She has walked right up to me on several occasions. Such a beauty and would love to be pampered and loved on.

Atomic- Jubilee's sire

Kiva – Jubilee's dam and Jubilee as a foal
