

Loki is a 2018 black colt from the Round Mountain area of the Little Book Cliffs horse range. He is from one of the more elusive bands, so was not seen often, and then, usually from a distance. His dam is Pepper, a black mare and Onyx, a black stallion is his sire. These horses all seem to be part mountain goat, so should make a great little trail horse.

a few months old

Sire- Onyx

Dam – Pepper
