

I remember the first time I got close to this boy I was in my car driving pass Round Mountain looking in the big fields for mustangs. Over on a ridge there were three mustangs, grabbing my binoculars I was able to ID two of the mustangs but did not know who the last one was looking at the list (Waco, Phoenix ) was there but didn't know who the sorrel with the race was he was running around as he was protecting his new found band. I took pictures and e-mail (Billie ) she e-mail back and told me it was Tanner. I only saw this colt as a baby and he had changed a lot into a handsome boy. Tanner is out of Onyx and Tawny these two can sure produce nice foals. Tanner was born in 2015 and was gather from The Little Book Cliff Range October 16, 2018. Tanner is looking for a person who will love and treat him right and become best friends. He would eventually like to bring his new owner for a ride to where he used to live.
