

Tawny is a sorrel mare born in the spring of 2012. She is seven years old. Her sire is Onyx and her dam is Chrome. This band hangs out pass Round Mountain in Lowgap. This band was gathered October 16, 2018. They are elusive and don't like be around people. They are a hard group to find as they stay down in the ravines in areas hard to get to. You are lucky to get pictures of this group. I was able to get good pictures of them as they were in the field next to the road and I was there at the right time. The Friends of the Mustangs will miss seeing this group of horses and wish them well as they find there new homes. Tawny is the dam of four foals (Tanner, Hondo, Licorice and Star.) Tawny and all of her off springs are up for adoption looking for people who will love them and give them great homes.
